Three Months	.25

JULIAN BYRD — — — Manager

Hurrah for Bourne! Son-in-law Nick says Teddy might accept another nomination if the Chicago convention should stampede to him.

Press reports state that early fruit has been seriously damaged in southern Oregon. If we have good luck we may be able to supply our more unfortunate neighbors with fruit.

Events of the past few days have added to the cause of the local optimists. It doesn't make any difference where the blame lies; the effect is favorable to those who would vote Harney a dry county.

Why, of course, it is always the other party that circulates false reports—it is confined only to one party in any campaign. The old time people of Harney county do like to be treated as infants or idiots!

Partisan papers would not give Geo. E. Chamberlain the privilege of running for U. S. Senator. Of course he has no business trying for the place since a few self constituted bosses object, but George always would go contrary to their wishes.

Late Portland papers say that State Treasurer Steel will be indicted in connection with the officers of defunct Title Guaranty & Trust Co. Bank. It is expected that T. T. Burkhardt, treasurer of the defunct concern, will plead guilty to the conversion of the educational fund of the state, and implicate Steel.

Both of the Ontario papers last week in reporting the vote on joint-senator gave Mr. Parrish 257 and J. L. Sitz 549. The Times-Herald took this as correct without any further investigation and stated that Sitz had been defeated by only 46 votes. The official returns from Malheur county changes these figures very materially. Instead of Sitz getting 549 votes he received 267 while Parrish received 280, giving the latter a majority in every county of the district.

meeting of the trustees Thursday evening at the club house Grover Jameson was elected secretary and Henry Dalton treasurer. The selection of a manager was postponed until later.

President Farre has appointed the following committees for the year: Auditing committee, Sam Mothershead, Julian Byrd, Chas. Wilson. Membership committee, I. Schwartz, C. W. Ellis, Julian Byrd, Athletic committee, C. W. Ellis, A. O. Faulkner, I. Schwartz.

These committees will begin active work at once on their various duties. An energetic campaign will be waged by the membership committee in order to get the club started and secure finances.

The club has permanent quarters in the King hall near The Times-Herald office and as soon as possible these quarters will be made comfortable and attractive.

## WORKING ON RACE TRACK.

Two teams and a small force of men are busy working on the race track, putting it in condition for the spring race meet. The work is in charge of Tom Cain, who expects to put it in first class condition and make it the equal of any track in Eastern Oregon. Something like \$400 has been subscribed and will be expended on the track. Tom is an Al horse and track man and thoroughly understands his business. It is the intention of the management to pull off the biggest and best race meet this coming June, that they have ever held. A large number of horsemen from Eastern Oregon counties have expressed their desire to be present and participate in the meet.—Grant County News.

## INCREASE MILL CAPACITY.

Joe Sturtevant, proprietor of the grist mill, has arranged to practically double the capacity of the mill this season and the necessary machinery is now ready to be installed. The Harney country can produce all mill stuffs for home consumption and Mr. Sturtevant will be ready to do his part.

## LOCAL AND PERSONAL.

Dave Richardson was over from Harney a few days this week.

Isaac Foster and Homer Cecil came over from Silver Creek yesterday.

Dick Noble and J. H. Jordan have been spending a few days in this city.

John Schenk will cut your wood. Get your government permit and then see him.

Sam Mickel and wife were the guests of relatives and friends in this city Thursday.

Miss Effie Terrill began a spring term of school in the district up the river Monday.

Mr. Farmer, if you are in need of a Plow or Harrow—move this way. My stock in that line is low. Call in before it is too late. J. J. Tupker.

Carl Welker and Charles Ball left Tuesday morning for Winnebucca. They will be absent an indefinite time and Carl may go on to Montana.

The Prineville Journal says there are representatives of an electric railroad there who propose to build a line from Condon to Prineville and Bend.

The supreme court has rendered a decision in the water suit of S. S. Williams and others against Wm. Atlow in which it brings out questions regarding riparian rights that are not altogether in keeping with former opinions. The decision is given space in a recent issue of the Oregonian, but is too long to publish this.

The officers of the club are: Wm. Farre, president; Julian Byrd, I. Schwartz, Sam Mothershead.

## POLITICAL ADVERTISEMENTS.

### TO THE VOTERS OF HARNEY COUNTY.

Are you independent voters, or not? Do you intend to be dictated to by people not interested in your welfare? Is it not the custom in all civilized countries to keep a good public officer as long as he is willing to serve honorably and profitably? Do not be driven into line by a lot of carpet-bag dope. Your duty calls upon you to vote independent and conscientiously and not be muzzled and driven to the pen. You are better able to judge the merits of a candidate than others whose only interest is the financial gain and political prestige obtained through you. Do away with bosses. Be free and independent. Do not be the tail to anybody's kite.

Events of the past few days have added to the cause of the local optimists. It doesn't make any difference where the blame lies; the effect is favorable to those who would vote Harney a dry county.

Why, of course, it is always the other party that circulates false reports—it is confined only to one party in any campaign. The old time people of Harney county do like to be treated as infants or idiots!

## TO SAVE OREGON BIRDS.

## DEMOCRATIC TICKET.

Permanent breeding places for Oregon wild fowl in eastern Oregon are being investigated by the Audobon society of Portland and an effort will be made to have such breeding places established among the rule lakes and upon government and state lands in eastern and southern Oregon.

As both Governor Chamberlain and President Roosevelt are in thorough sympathy with the movement the Audobon society is anxious to secure the requisite lands immediately, while they are still in office and able to actively assist in the work.

These committees will begin active work at once on their various duties. An energetic campaign will be waged by the membership committee in order to get the club started and secure finances.

The club has permanent quarters in the King hall near The Times-Herald office and as soon as possible these quarters will be made comfortable and attractive.

Manzan Pile Remedy. Price \$5 is guaranteed. Put up ready to use. One application prompt relief to any form of piles. Sootheth and heals. Sold by The Welcome Pharmacy, Burns, Oregon. Fred Haines, Harney, Oregon.

## A SHORTAGE OF LUMBER.

Many of the new people now coming in and taking up land are prevented from starting improvements at once on account of a scarcity of lumber. The mills turned a large amount of lumber last season, but not sufficient to supply the demand, therefore new people must wait until sawing is resumed this spring. This shortage is only temporary, however, as a greater amount of timber has been cut during the past winter and made ready for the saw.

From present indications there will be extensive improvements made during the present season and many new homes built. The vast amount of vacant government land in this county is attracting many people and while there is no rush at this time new people are continually coming in and filing.

## The Standard Bred Stallion

# PROGRESS

Trial, 2:20

Will stand the season of 1908 at the Fair Grounds, Burns, Oreg.
